

Council for Curative Education and Social Therapy, Medical Section, School for Spiritual Science, Goetheanum, Dornach, Switzerland

International Conference for Curative Education and Social Therapy from 3rd to 7th October, 2016 at the Goetheanum in Dornach

«...and growing, root me in existence»

The «I» in the body and the world

Call for workshop proposals

We are preparing the upcoming international conference that will take place this autumn.

Its subject is the human «I», its various dimensions, its historic perspectives, and its development into the future, especially as these pertain to curative education and social therapy. This theme follows naturally after those of the preceding years, 2010, 2012, and 2014, in which we worked on the questions of consciousness («Developing consciousness»), the will («Becoming proactive – the art of right action») and our feeling life («Culture of feeling»).

This subject is also specifically intended to include the 4th lecture from Rudolf Steiner’s course for the education of children with special needs («Heilpädagogischem Kurs»), in which the question of the «I» as it relates to the body is raised, particularly in the example of hysteria in children.

We invite you to become actively involved in this conference and to take part in leading a workshop.

Conference participants may each take part in a morning workshop and an afternoon workshop. Each workshop meets three times, and each session is 90 minutes long.

Monday	Tuesday	Wednesday	Thursday	Friday
High School work for Class Members	Lecture	Lecture	Lecture	Podium discussion
	Workshops 11:00am - 12:30pm			Lecture
Preliminary talk for presenters 15:30	Art at Two (45 minutes)			
	Workshops 3:00pm - 4:30pm			
Conference opening	Focus points of current spheres of activity			
Lecture	«Momo»	Faust	The Flöz family	

We would like to have workshops on the following subjects:

- The being and development of the human «I»
- Curative educational and social therapeutic questions regarding the development of the «I»

- Topics specific to the 3rd and 4th lectures in Rudolf Steiner's course on education for children with special needs
- Questions regarding the spiritual path of initiation and meditative practice
- Social issues and community building
- Artistic workshops corresponding to the theme

We especially look forward to workshop offerings whose methods are based on dialogue and practice.

The International Conference for Curative Education and Social Therapy is a place where we can come together from all over the world, to meet and to expand our professional knowledge. It is organized by volunteers. As is common for international conferences, the organizers are not able to offer either honoraria or travel, room and board reimbursement. However, workshop leaders receive complimentary conference tickets (generally 1 ticket per workshop group). In special cases we may be able to offer partial reimbursement for travel costs. Requests for this support must be lodged in advance and cannot be granted after the event.

Please register your workshop proposal by filling in the form on this website. You can also request it by mail or email through the office of the Conference for Curative Education and Social Therapy. Please email your proposal to ths@khsdornach.org or mail it to the Conference for Curative Education and social therapy, Ruchti-Weg 9, 4143 Dornach, Switzerland (no fax).

Your proposal must be received by 20th February, 2016 and we will respond by mid-March, 2016, at the latest, to let you know whether we would like you to lead your proposed workshop.
